DISHWASHERS

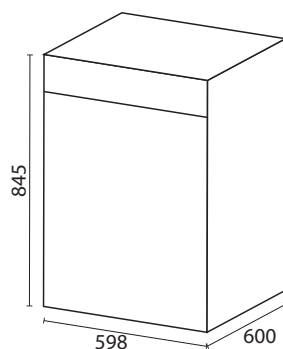

- A++** With its lower energy and water consumption to perform the maximum functionality, thus earning the energy efficient rating of A++.
- P₈** Giving you 8 program options to wash your dishes and glasses as how you want it to be.
- 1/2** Thanks to this function, you don't always have to wait until your dishwasher is fully loaded to start. Saving you energy and water consumption.
-  For safety precaution, the Aqua Stop system helps detect any leakages inside the dishwasher and immediately stops the water supply and the dishwasher from further damages.

-  The 24-hour delay start feature allows you to operate your dishwasher whenever suits you best.
-  The innovative basket system offers a wide range of adjustment options, giving you the ultimate flexible loading to suit your preferences exactly.
- 14** Our full-size dishwasher has the capacity of 14 place settings. The industry defines a place setting as consisting of a dinner plate, dessert plate, single glass, soup bowl, tea cup with saucer, and an assortment of cutlery.
-  Water are directed to the spray arms located on the top and bottom of the dishwasher, to help reach into smaller spaces between the baskets.
